

# **A Simple Menu For Hard-Disk Computer System**

**1992**

**Maktab Perguruan Batu Lintang**

**Yew Chang Yao**

This short note is meant for anyone who uses an MS-DOS based computer with a hard disk. It makes the assumption that the organization of your system is relatively simple and you use only a few software packages such as dBASE, WORDSTAR, LOTUS123 and BASIC programming. It will explain how to create a simple menu system from batch files. The advantages of having a system menu is to present all the options available in your system and to reduce the number of keystrokes needed to use the options.

## **Kandungan:**

1. Menu.bat
2. Main.mnu
3. 0.bat
4. 1.bat
5. 2.bat
6. 3.bat
7. 4.bat
8. 5.bat
